

Project design phase 1

Solution architecture

Date	09 November 2022
Team ID	PNT2022TMID08456
Project name	REAL TIME RIVER WATER QUALITY MONITORING AND CONTROL SYSTEM
Maximum mark	2 Marks

Solution Architecture:

Solution architecture is a complex process - with many sub-processes that bridges

the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
